PERSONAL STATEMENT

Dmitrijs is highly focused software developer with five years experience in a variety of development positions. Organised, methodical and a keen eye for detail results in solid coding and trustworthy software programmes. Understanding client requirements and communicating the progress of projects are core values in achieving long lasting business relationships.

Key roles to date include Backend, Frontend and Mobile software development while working remotely for Insights headquarters located in Scotland.

Working in different areas of software development Dmitrijs has developed key skills:
- Strong coding and debugging skills
- Coding experience with JavaScript, C# and Java
- Work with databases such as MSSQL, PostgreSQL, MySQL, MongoDB
- Fix bugs in existing solutions
- Ability to work independently and within groups
- Analyze user needs
- Analytical thinking
- Develop software from ground up
- Write tests to ensure normal software functionality
- Document and comment code
- Mentor new junior employees
- Create backend services
- Develop mobile applications
- Provide help with support tickets
- Create reports

Dmitrijs personal favourite development stack is:

- Node JS [Backend]

- Angular [Frontend]

- Appcelerator [Mobile]

- Docker [Virtualization]

- Visual Studio Code [Source code editor]
